

MAHJ DAY · ONE SHEET PER TABLE

Mahjong Score Sheet

Date _____

Table _____

How the points move

- **Thrown:** whoever threw the winning tile pays double the hand's value. Everyone else pays the value.
- **Self-picked:** everyone pays double.
- **Jokerless:** double it all.
- **Wall game:** nobody's points change.

Example: a 25 hand, table of 4

- **Thrown:** $50 + 25 + 25$, so the winner gets **+100**
- **Self-picked:** $50 + 50 + 50$, so **+150**
- **Jokerless:** **+200** thrown, **+300** self-picked
- Every game adds up to zero. After each game, the deal passes to the right.
